SUMMARY

Ecosystem architect with 8 years building tech-focused global and regional communities, spanning cybersecurity research and Web3 ecosystem development. Proven track record designing and running end-to-end community, incubation and event programs across the APAC region, and mentoring or judging 60+ hackathons at leading universities worldwide.

8 yrs tech community & ecosystem work **16,000+** participants across events **200+** events globally

5 hacker houses & incubations **60+** hackathons mentored & judged **100+** speaker sessions

EXPERIENCE

Incubation & Community Lead Arweave (India & APAC) 2023 – 2026

- Built a full community system spanning **hacker houses, debriefs, challenges, Launchpads and flagship events: 60+ events run**, reaching **5,000+ participants**. Organised **Arweave Day India** (349+ international attendees), a 13-day **Stealth House** shipping sprint (10+ products shipped), recurring multi-city & country-wide debrief tours, and investor-facing demo days for every cohort.
- Led international presence across major crypto conferences: a Singapore **Hacker House** and Touchgrass retreats, presence at **Token2049**, side events at **Consensus Hong Kong**, and an **Arweave sponsor booth and side event at ETHDenver 2025**.
- Designed and ran **5 Hacker Houses**, drawing 150+ scholars from 1,500+ applications; projects like **ARlink, BetterIDEa, Orbit** went on to raise a **$2.5M seed and get acquired**.
- Built and led a **3-month Launchpad** incubation track supporting **40+** post-Hackerhouse founders through to follow-on funding, including founder operations, end-to-end legal documentation, receiving funds, and investor meetings.
- Owned the organisational stack end-to-end: venue sourcing, participation funnels, daily shipping rhythm, demo day, and founder follow-through.
- Led and managed content IP initiatives: T**he Winston Show**, **Humanity & Heritage Series**, and UGC campaigns, generating **70k+ views**.
- Set up and grew the Discord community from zero to several thousand members, owning moderation, support channels, and partner coordination.
- Built **Clickoor** (clickoor.ar.io), a custom hardware device built from scratch using a Raspberry Pi, 3D-printed case, and Web3 wallet integration.
- Generated several million impressions on Arweaveindia X through content creation and developer advocacy campaigns.
- Supported production feedback and user onboarding campaigns for aodevbot.io and onememory.xyz.

Regional Lead: Community Expansion Zeeve 2022-23

- Onboarded **2,000+ recurring users** and **5,000+ developers** building on Zeeve within 6 months.
  - Organised 15+ regional events.

Research Lead EC Council Institute 2021-22

- Led 10+ cybersecurity and AI research programs focused on cyberkill chains, AI in data centres, advanced data processing, building out the institute's early research programs and community with participants from 8 different countries.

Organising, Mentoring & Judging Global hackathons 2020 – currently volunteering

- Mentored and judged **60+ hackathons globally**, including university programs at Stanford, Columbia, UCSD, Arizona, UofT and the IITs.
- Organised **12 large-scale hackathons** (7 online and 5 offline) with **600+ participants** each, plus event tours leading up to them.
  - On the organisational side for reputable hackathons including Hack This Fall and Hack The Mountains,.
- Handled production for a large-scale gaming event — **Free Fire National Qualifiers** — with **2,000+ attendees** (April 2026).
